

Athletic Department
Resocialization of Sports Recommendations

INTRODUCTION

The COVID-19 pandemic has presented athletics across the world with a myriad of challenges. The COVID-19 virus is a highly contagious illness that primarily attacks the upper respiratory system. The virus that causes COVID-19 can infect people of all ages. Research from the Centers for Disease Control, among others, has found that while children do get infected by COVID-19, relatively few children with COVID-19 are hospitalized. However, some severe outcomes have been reported in children, and a child with a mild or even asymptomatic case of COVID-19 can spread the infection to others who may be far more vulnerable. While it is not possible to eliminate all risk of furthering the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks to students, coaches, and their families.

The UCASD will take the necessary precautions and recommendations from the federal, state, and local governments, CDC, PA DOH, as well as the NFHS and PIAA. The UCASD realizes the knowledge regarding COVID-19 is constantly changing as new information and treatments become available. These recommendations will be adjusted as needed as new information becomes available in order to decrease the risk of exposure for our staff, students, and spectators.

RECOMMENDATIONS

Recommendations for **ALL PHASES** for Junior and Senior High Athletics

1. Athletes, Coaches, and Staff will undergo a COVID-19 health screening prior to any practice, event, or team meeting. The type of screening will be dependent upon the available resources and the Phase level. The purpose is to check for signs and symptoms of COVID-19, which will include a Non-touch temporal scan of a temperature higher than 100.4 degrees.
2. Promote healthy hygiene practices such as hand washing (20 seconds with warm water and soap) and employees wearing a cloth face covering as feasible. (Face coverings are recommended to help decrease potential exposure to COVID-19 respiratory droplets by an infected individual. Face Coverings will not be used for athletes while practicing or competing.) Hand Sanitizer will be available for team use as resources allow.
3. Intensify cleaning, disinfection, and ventilation in all facilities
4. Encourage social distancing through increased spacing, small groups, and limited mixing between groups, if feasible
5. Educate Athletes, Coaches, and Staff on health and safety protocols
6. Anyone who is sick must stay home
7. Plan in place if a student or employee gets sick
8. Regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures
9. Athletes and Coaches **MUST** provide their own water bottle for hydration. Water bottles must not be shared.
10. PPE (gloves, masks, eye protection) will be used as needed and situations warrant, or determined by local/state governments.

11. Identify Staff and students who may be at a higher risk of severe illness from COVID-19 due to underlying medical conditions. (See - CDC “People Who are at a Higher Risk for Severe Illness”)

CLASSIFICATION OF SPORTS

High Risk: Sports that involve close, sustained contact between participants, lack of significant protective barriers, and high probability that respiratory particles will be transmitted between participants. Examples: football, wrestling, cheerleading (stunts), dance

Moderate Risk: Sports that involve close, sustained contact, but with protective equipment in place that may reduce the likelihood of respiratory particle transmission between participants OR intermittent close contact OR group sports that use equipment that can't be cleaned between participants. Examples: basketball, volleyball, baseball, softball, soccer, ice hockey, tennis, pole vault, high jump, long jump, 7 on 7 football

Low Risk: Sports that can be done with social distancing or individually with no sharing of equipment or the ability to clean the equipment between users by competitors. Examples: running events, cross country, throwing events, swimming, golf, weightlifting, sideline cheer

** High/Moderate Risk Sports may move to a Low risk category with non-contact modifications.

LEVELS OF PARTICIPATION

Level 1 (PA State Red)

Team Activities: No In-person gatherings allowed, Athletes and Coaches may communicate via online meetings (zoom, google meet, etc.), Athletes may participate in individual home workouts including strength and conditioning.

- All school facilities remain closed as per PA State Guidelines.
- Athletes and Coaches should abide by guidelines set forth by the local and state governments.

Level 2 (PA State Yellow)

Team Activities may include: team meetings, open gym, kick around, weight training/conditioning, running events, cross country, throwing events, swimming, golf, and sideline cheer, etc. Weight rooms remained closed under PA yellow.

Pre-workout Screening:

- All coaches and students should be screened for signs/symptoms of COVID-19 prior to a workout. The screenings could range from a verbal/written questionnaire to a temperature check (See Appendix for COVID-19 Screening Form)
- Responses to screening questions for each person should be recorded and stored so that there is a record of everyone present in case a student develops COVID-19
- Any person with positive symptoms reported should not be allowed to take part in workouts and should contact his or her primary care provider or other appropriate health-care professional. A clearance (PIAA Cipe form page 8) may be required to return to play.

Limitations on Gatherings:

- Under PA yellow, no gathering of more than 25 individuals per group including coaches per practice area.
- Controlled non-contact practices only, modified game rules
- Social Distancing should be applied during practices and in locker rooms, and gathering areas.

Facilities Cleaning:

- Adequate cleaning schedules should be created and implemented for all athletic facilities to mitigate any communicable disease
- Athletic Facilities should be cleaned prior to arrival and post workouts and team gatherings, high touch areas should be cleaned more often
- Weight room remains closed under PA yellow
- Appropriate clothing/shoes should be worn at all times in the weight room to minimize sweat from transmitting onto equipment surfaces
- Athletes wipe down and sanitize equipment between each use

Physical Activity:

- Lower risk sports practices may begin
- Modified practices may begin for Moderate and High-risk sports (practices must remain non-contact and include social distancing where applicable, activity should focus on individual skill development)
- Students should refrain from sharing clothing/towels and should be washed after each practice, including pinnies
- Athletic equipment that may be used by multiple individuals (balls, shields, tackling dummies, shot put, discus, pole vault, etc.) should be cleaned intermittently during practice and events as deemed necessary
- Hand sanitizer should be used periodically as resources allow

Hydration:

- Students MUST bring their own water bottle. Water bottles must not be shared.
- Hydration stations (water coolers, water fountains, water cows, water troughs, etc.) should not be utilized

Level 3 (PA State Green) after July 1st (or sooner if PIAA allows)

Team activities may include: basketball, volleyball, baseball, softball, soccer, ice hockey, tennis, pole vault, high jump, long jump, 7 on 7 football, etc.

Pre-workout/Contest Screening:

- Any person who has COVID-19 symptoms should not be allowed to participate in practice/games, and should contact their primary care physician or another appropriate health-care provider. A clearance may be required to return to play.
- COVID-19 Screenings (Questionnaire and Temperature Checks may continue as per State and Local government recommendations)
- Team attendance should be recorded

Limitations on Gatherings:

- As per State and Local Guidelines (Currently 250 – athletes, coaches and spectators)
